

Luxell receives a new contract on 6x8” Liquid Displays (LCD) for Japan

TORONTO Dec 13, 2011 Luxell Technologies Inc. is pleased to report it has received a new contract from IRTS (France) for the development, and manufacturing of 6x8 “ Liquid Crystal Displays (LCD). The displays are for an upgrade to the current on-board mission system on the Japanese fleet of P3s with deliveries scheduled to start in 2012.

Luxell Technologies has delivered and maintained numerous Liquid Crystal displays as well as Thin Film Electro Luminescent (TEFL) displays for aerospace and defence applications for North American, European, and Asian system integrators. Luxell’s involvement with P3 aircraft already included Mission Display systems on the worldwide fleet. The new display will answer additional specific needs for the Japanese operators

This is another contract through IRTS with which LUXELL has established a marketing agreement with prospective production sharing–IRTS, which is based in France specializes–in land and naval display systems

“The IRTS-LUXELL relationship is successfully meeting the specific needs of aerospace system integrators, reaching new customers and business opportunities for both companies` declared Jean-Louis Larmor, Luxell Technologies’ CEO.` We also believe this proven product and corporate relationship will support our goal of meeting the new naval and land display needs specified in Canada’s Department of National Defence programs.

About IRTS:

IRTS has developed a complete range of products covering COTS and customized ultra-rugged smart display. IRTS ultra-rugged displays have been selected for the major European naval programs (including the latest European FREMM frigates). IRTS is also working with Thales Defense System in South Africa, with GD UK in the Middle East, with Bharat in India. They have also been selected by TERMA to provide the global hardware solution for their C4I C-RAID which was recently deployed in the Australian defense naval forces.

IRTS[®] and A4R[®] are IRTS trademarks.

About Luxell:

Luxell designs, manufactures and licenses flat panel display technologies and solutions for defense and avionics industries.
